CAREER OBJECTIVE

As a Computer Science and Engineering (CSE) graduate and Software Quality Assurance (SQA) enthusiast I want to secure a position in an organization that offers opportunities for learning and growth, where I can leverage my CSE knowledge in SQA, manual testing, test planning, API testing using Postman, SDLC, STLC, Agile methodologies and python programming to ensure software quality. Seeking an entry-level SQA role to contribute to software quality and continuous improvement.

SKILLS

- **Manual Testing:** Requirement Analysis, Test Strategy Development, Test Cases Writing & Review, Test Case Execution & Evaluation, Test Reporting, Test Case Design, Root Cause Analysis and Bug Reporting using Test Management Tool.
- **API Testing Tools:** Postman
- **Project Management Tool:** Jira
- **Concepts:** SDLC, STLC, OOP
- **Programming & Scripting Languages:** Python, PHP, HTML, CSS
- **Operating system:** Windows, Linux
- **Computer skills:** Microsoft Office (Word, Excel, PowerPoint), Google Docs, Google Sheets, Google Slide
- **Frameworks:** Django, Laravel
- **Database:** MySQL, SQL [Query Data(Select), DDL, DML, Filtering Data, Combining Data]
- **Software & Tools:** VS code, PyCharm, Spyder, Jupyter Notebook, Google Colab

LANGUAGES

- **English:** IELTS overall band score 6.0 (Listening: 6.5; Reading: 6.0; Writing: 6.0; Speaking: 6.0) [CEFR Level- B2]
- **Bangla:** Native

RESEARCH & COURSE PROJECTS

- **A machine learning approach to predict the heatwave in Bangladesh region due to global warming**
(B.Sc Thesis | Supervisor: Prof. Dr. Md. Ashraful Alam) (June'24- June'25)
- **EchoGPT-QA-Software-Testing-Project**
 - Performed Functional Testing of EchoGPT Chrome Extension and EchoChat Android application.
 - Conducted API Testing using Postman, covering authentication, chat generation, chat history, and conversation deletion APIs.
 - Performed Exploratory Testing to identify edge cases, usability issues, validation problems, and unexpected application behavior.
 - Identified, documented, and prioritized software defects with severity and priority classification.
 - Conducted UI/UX testing and review, providing improvement recommendations for usability, navigation, layout, and consistency.
 - Prepared comprehensive test cases, bug reports, exploratory testing reports, and API testing collections.
 - Tested scenarios including input validation, special characters, emojis, long inputs, multiple tabs, refresh, loading states, and error handling.

- **AgroFusion Farmer Assistance and Market Solutions (CSE470)** 
 - Developed a Laravel-based agricultural marketplace connecting farmers and buyers, implementing authentication, product management, and MySQL database integration.
 - Tools used: Laravel, PHP, MySQL, SQL
- **Ward Council Management System (CSE471)** 
 - Developed a Django-based web application for managing ward council services, enabling citizens to access information, submit requests, and receive community support through a centralized user-friendly platform.
 - Tools used: Django, Python, HTML, CSS, JavaScript
 - Create user-manual for end users.
- **Estimation of Gold's Price (CSE422)** 
 - Applied data preprocessing, exploratory data analysis, and machine learning algorithms on a Kaggle dataset to predict gold prices based on historical trends.
 - Tools used: Python
- **Password Security System using logic gates with proteus 8 professional (CSE260)** 
 - Designed and simulated a digital password security system in Proteus 8 Professional using logic gates to implement two-factor authentication and access control.
 - Tools used: Proteus 8 Professional
- **Traffic Light with Human Interaction (CSE423)** 
 - Developed an interactive traffic light simulation using OpenGL, incorporating human interaction features and real-time graphical visualization for traffic control scenarios.
 - Tools used: Python, NumPy, OpenGL

EDUCATION

- **Bachelor of Science (B.Sc) | 2020-2025**
BRAC University | Dhaka, Bangladesh
 - **CGPA:** 3.31/4.00
 - **Department:** Computer Science & Engineering (CSE)
 - **Coursework:** SOFTWARE ENGINEERING, SYSTEM ANALYSIS AND DESIGN, COMPUTER NETWORKS, DATABASE SYSTEMS, WEB DEVELOPMENT

TRAINING & CERTIFICATIONS

- Full Stack SQA - IT Training BD  Ongoing
- Data Annotation - Quantigo AI 
- Machine Learning with Tree-Based Models in Python - DataCamp 
- Feature Engineering for Machine Learning in Python - DataCamp 
- Cleaning Data in Python - DataCamp 
- HTML5 and CSS3 - Pirple
